GAG 5-8-01

Manual of Patent Examining Procedure, Section 713.04 Substance of interview must Be Made of Record

Except as otherwise provided, e complete written statement as to the substence of any fece-to-face or telephone interview with regard to en application must be made of record in the application, whether or not an agreement with the examiner was reached at the interview.

§1.133 Interviews

(b) In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reesons presented et the interview es warranting favorable action must be filed by the epplicant. An interview does not remove the necessity for reply to Office ection as specified in §§ 1.111 end 1.135. (35 U.S.C. 132)

§ 1.2. Business to be transacted in writing. All business with the Patent or Trademark Office should be transacted in writing. The personal ettendance of epplicents or their attorneys or egents at the Petent and Trademark Office is unnecessary. The ection of the Petent and Trademark Office will be besed exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understending in relation to which there is disegreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is Itself incomplete through the fellure to record the substance of Interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so, it is the exeminer's responsibility to see that such e record is made and to correct material inaccuracies which bear directly on the question of natentability.

Examiners must complete a two-sheet carbon interleaf Interview Summary Form for each interview held efter Jenuary 1, 1978 where e matter of substence hes been discussed during the Interview by checking the appropriete boxes and filling in the bianks in neat handwritten form using a ball point pen. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Menual of Petent Exemining Procedure, pointing out typogrephical errors or unreadable script in Office actions or the like, or resulting in en exeminer's emendment that fully sets forth the egreement are excluded from the interview recordation procedures below.

The Interview Summary Form shall be given an appropriate peper number, placed in the right hand portion of the flie, and listed on the "Contents" list on the flie wrapper. In a personal interview, the duplicate copy of the Form is removed and given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephonic interview, the copy is malled to the epplicant's correspondence address either with or prior to the next official communication.

The Form provides for recordation of the following Informetion:

- Application Number of the application
- -Name of applicant
- Name of examiner
- Date of Interview
- -Type of Interview (personal or telephonic)
- -Name of participant(s)) (applicent, attorney or egent, etc.)
- An Indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the claims discussed
- An Identification of the specific prior art discussed
- An indication whether an egreement was reached and if so, a description of the general nature of the agreement (may be by attechment of e copy of amendments or claims agreed as being alloweble). (Agreements as to allowability ere tentative and do not restrict further action by the examiner to the contrery.)
- The signature of the examiner who conducted the Interview
- -Names of other Patent and Trademark Office personnel present.

The Form also contains a statement reminding the applicant of his responsibility to record the substance of the Interview.

It is desireable that the examiner orally remind the applicant of his obligation to record the substance of the interview in each case unless both applicant and examiner agree that the examiner will record seme. Where the examiner agrees to record the substance of the interview, or when it is adequately recorded on the Form or in an attachment to the Form, the examiner should check a box at the bottom of the Form informing the applicant that he need not supplement the Form by submitting e separate record of the substance of the interview.

It should be noted, however, that the interview Summary Form witl not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the exeminer to include, all of the applicable items required below concerning the substance of the interview:

- . A complete and proper recordation of the substance of any interview should include at least the following applicable Items:
- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) en identification of the claims discussed,
- 3) an identification of specific prior art discussed,
- an Identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary
- Form completed by the examiner,

 5) a brief identification of the generel thrust of the principal arguments presented to the examiner. The identification of arguments need not be lengthy or elaborate. A verbatlm or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the epplicant may desire to emphasize and fully describe those erguments which he feels were or might be persuasive to the examiner,
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summery Form completed by the examiner.

Exeminers are expected to carefully review the applicant's record of the substence of an interview. If the record is not complete or accurete, the exeminer will give the applicant one month from the date of the notifying letter to complete the reply end thereby avoid abandonment of the application (37 CFR 1.135(c)).

Examiner to Check for Accuracy

Applicent's summary of what took piece at the interview should be cerefully checked to determine the accurecy of any ergument or stetement ettributed to the exeminer during the interview. If there is an inaccuracy and it bears directly on the question of patentebility, it should be pointed out in the next Office letter. If the claims are allowable for other reasons of record, the exeminer should send a letter setting forth his or her version of the statement attributed to him. If the record is complete and accurate, the examiner should piece the indicetion "interview record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.
